### PROFESSIONAL SUMMARY

Senior Architect & BIM Coordinator with 16+ years of international experience delivering high-rise residential, mixed-use and healthcare projects across the UAE and Algeria. Currently practising independently as a Freelance Interior Designer and 3D Visualization specialist, applying AI-assisted visualization and prompt engineering to concept development and client presentations. Previously led design coordination on two flagship Dubai towers at Model Engineering Consultant. RICS-accredited, ISO 19650 BIM Management certified, with hands-on contractor-side site validation experience and proven fluency in Dubai Municipality (DM), Dubai Civil Defence (DCD) and DEWA authority approvals. Trilingual: Arabic (C2), French (B2), English (B2).

### CORE COMPETENCIES

Senior Architectural Design & Technical Documentation, DD-to-Tender Package Development, High-Rise & Healthcare Design (Hospital & Oncology Facilities), BIM Coordination & Management, ISO 19650 (BEP / MIDP / TIDP), CDE Governance, Federated Model Coordination, Clash Detection & Resolution, Multidisciplinary Coordination (Architecture / Structure / MEP / Facade), DM / DCD / DEWA Authority Approvals, RFI Management, BOQ & Quantity Validation, QA/QC, Site Coordination & Snagging, Interior Space Planning, Layout Analysis & Design Audits, AI-Assisted Visualization & Prompt Engineering (Concept Renders, Image Generation Workflows).

**Software:** Autodesk Revit, Navisworks, AutoCAD, BIM 360 / Autodesk Construction Cloud (ACC), Bluebeam Revu, Enscape, Twinmotion, Adobe Photoshop / Lightroom.

### KEY CAREER HIGHLIGHTS

- Led design coordination on a 90-storey residential tower in Downtown Dubai (GFA uncapped) and a 50-storey tower on Sheikh Zayed Road (GFA: 130,000 m<sup>2</sup>), owning the full DM, DCD and DEWA submission strategy.
- Delivered DD-to-tender packages on Kings' Square (8-tower mixed-use, Riyadh, Saudi Arabia, GFA: 151,473 m<sup>2</sup>); coordinated structural, MEP, facade and BMU/cleaning systems across all 8 towers — ~1,500+ clashes resolved.
- Authored ISO 19650-aligned BEP, MIDP and TIDP frameworks governing CDE quality, naming-convention compliance and federated model integrity.
- Delivered a 240-bed regional hospital and a 140-bed Anti-Cancer Centre in Algeria, concept through tender — full programmatic, technical and authority-compliance ownership.
- 4+ years contractor-side site and head-office BIM experience — RFI cycles, submittal review, BIM-based hospital design, snagging and handover.

### PROFESSIONAL EXPERIENCE

#### Freelance Interior Designer | 3D Visualization — Independent Practice, Dubai, UAE May 2026 – Present

- Working independently on interior design and 3D visualization projects — space planning, concept development, mood boards, material and finishes selection, and realistic interior 3D views.
- Applying AI-assisted visualization and prompt engineering techniques to improve concept communication and deliver client-ready visual outputs.
- Focus areas: interior design concept development, layout analysis, material specification, AI-driven presentation workflows and AEC visualization.

#### Senior Architect / BIM Coordinator — Model Engineering Consultant, Dubai, UAE Nov 2025 – May 2026

- Lead architect and BIM coordinator on two flagship Dubai high-rise towers — 90-storey Downtown Dubai (GFA uncapped) and 50-storey Sheikh Zayed Road (GFA: 130,000 m<sup>2</sup>).
- Drive multidisciplinary coordination (Arch/Str/MEP/Facade) across 6–8 consultant teams; chair weekly Navisworks clash review cycles and own the resolution log.
- Own DM, DCD and DEWA submission strategy, translating commercial intent into compliant, first-pass technical packages.
- Maintain ISO 19650-aligned workflow: BEP, MIDP/TIDP, CDE governance, model audit cycles, naming-convention enforcement.
- Reduced late-stage rework on egress, facade safety and MEP shafts through early design-stage clash resolution.
- Mentor junior architects on Revit standards, authority submission protocols and ISO 19650 workflows.

#### Senior Architect — James Cubitt & Partners, Riyadh, Saudi Arabia

Jul 2025 – Nov 2025

*Kings' Square (8-Tower Mixed-Use)*

- Authored coordinated technical packages for facade strategy, BMU/cleaning system, green-roof + thermal insulation and landscape interface.

- Coordinated structural and MEP integration across 8 towers; led clash resolution prior to tender — ~1,500+ clashes resolved.
- Supported KSA authority submission and consultant QA review cycles.
- Mentored 2 junior architects on Revit family standards and ISO 19650 workflows.

#### **Senior Technical Architect — EAS (Consultant), Dubai, UAE**

**Dec 2023 – Dec 2024**

- Owned end-to-end BIM coordination for multidisciplinary projects in compliance with ISO 19650; authored and maintained BEP, MIDP and TIDP frameworks across the project lifecycle.
- Led federated model coordination and clash detection; acted as single point of contact between client and consultants. Ensured PIM quality, naming-convention compliance and CDE governance.
- Led technical design and coordination on Dubai consultancy projects with full Dubai Municipality compliance; drove DD and IFC packages, developing schematic concepts into coordinated technical solutions.
- Mentored junior architects on UAE authority submission protocols (DM, DCD, DEWA).

#### **Technical Architect — Great Brand / ILK (Main Contractor), Algeria**

**Dec 2022 – Dec 2023**

*Anti-Cancer Centre, 140-Bed Capacity*

- Delivered BIM-based quantity extraction and BOQ validation for a 140-bed specialist healthcare facility.
- Managed architectural modelling and on-site coordination across structural, MEP and finishing trades; supervised daily site activities for schedule, quality and specification compliance.

#### **BIM Architect — Hospital Design — GB Construction (Main Contractor, Head Office BIM Dept.), Algeria Jul 2021 – Dec 2022**

*Hospital Facility, 240-Bed Capacity*

- Responsible for hospital design development and BIM production; produced and coordinated architectural BIM models, drawing packages and technical submissions.
- Liaised between design team and site to resolve technical queries and maintain model accuracy; contributed to QA/QC review and Arch/Str/MEP discipline coordination.

#### **Senior Architect — GB Construction (Main Contractor), Algeria**

**Dec 2020 – Jul 2021**

*Hospital Facility, 240-Bed Capacity*

- Supported project management and BIM coordination for the 240-bed hospital; led clash detection and technical coordination meetings between Arch/Str/MEP teams.
- Monitored site execution and finishing works for compliance with healthcare construction standards.

#### **Architect / Assistant Project Manager — Great Brand (Main Contractor), Algeria Jan 2019 – Dec 2020**

*Anti-Cancer Centre, 140-Bed Capacity*

- Contributed to BIM coordination and project management on the 140-bed Anti-Cancer Centre; supervised execution and ensured compliance with healthcare construction quality standards.

#### **Lead Architect — Concept Design (Consultant), Algeria**

**Dec 2013 – Dec 2018**

- Led design development for hospitals, public buildings and mixed-use programs from concept through tender; reviewed CAD technician drawings and enforced quality standards.

#### **Junior Architect — Multiple Engineering Consultancies, Algeria**

**Sep 2010 – Dec 2013**

- Assisted senior architects on design concepts and presentation packages; developed plans, elevations, sections and details.

## **EDUCATION & CERTIFICATIONS**

---

B.Sc. Architectural Engineering — University of Mentouri Constantine, Algeria, 2009

Certifications: BIM Management Certificate (ISO 19650-aligned), RICS-accredited — Online Academy, London (2024)

In Progress 2026: AI for AEC Workflows · n8n Automation · Claude Code · PMP (planned)

## **LANGUAGES**

---

Arabic — Native (C2) | French — Upper Intermediate (B2) | English — Upper Intermediate (B2)
